The editor UTNL

We bring you
the words that
strengthen
you,motivate
you & build u.

CARE FREE

CF

Being care free embodies a sence
of freedom and lightness,often characterized
by a lack of worry or anxiety.

It invites people to enjoy the present
moment,embrace a free life style & enjoy life.

ABOUT US CARE FREE

Our Services

Far far away ,behind the cities,far from the towns,we live
there where fresh breeze comes from.We are found in the
place that many call bad,think its disgusting to stay
there,but we tell you that it is the best place for anyone to
live.

A place near the lake shores,surrounded by trees,a
water body,and by various things from nature.Just the lake
many know,Lake Victoria the largest water body in East
Africa.

Uganda is the pearl of Africa,how we have proved
this due to the strategic location we are in .

Topic 01

Love yourself Buddy.Be your First LOVE.This is always
my first priority,Self love.Who will love you if you dont
love yourself first? So now buddy love yourself first
before anybody else.....

My Grand Mother told me."my girl if you dont love
youself,No body will love you." It is just like they say
"Respect yourself first before you tell others to respect
you."

My beloveds even God said love your neighbour as
you love your self. Isn't this true???

What Is Our Real Location?

Across the lake,Victoria is where we are located.we are
specifically found in Buwaya an island.

Many people think that this place is
surrounded by witches,it will never develop because of the
fact that there is alot of witchcraft in the area.???

But this is a wrong thinking.....
For we have been in this place and we are still there.We are
gonna become opulent in this spot that many think it is
charmed.

Topic 02

Do Not Be Worried About Anything.
Do not be worried,Even the Bible has a verse that says
do not be worried about tomorrow.....

For God is the one who takes care of us then now
why should you get worried.We should just thimk about
today and solve today problems.

Life is too short so we should mind about things
that keep us smiling daily than minding about tomorrow
worries.That is why we are care free,we dont worry
much.Life is short darlings.
